Will Return East Tonight via Ogden and the Union Pacific-Royally Entertained by Local Committee.

The local freight agents, some 450 strong, with their wives, daughters and sweethearts, came to town this morning over the Rio Grande Western. It was the original plan for the visitors to arrive here about ? p. m., but the fates decreed otherwise. It was not until be parties to the transaction. Certain 11:05 when the second section of No. 5 pulled into the depot; the third section of the same train bearing the balunce of the party, did not arrive in Salt Lake until 45 minutes later. As a consequence the elaborate breakfast that had been prepared for the railroad men at Kenyon and Cullen hotels had to be

The visitors were met at the depot by the local managers of the reception, C. R. Aley and W. H. Henderson, and were promptly transported to the Tab-ernacie, where a musical program was rendered for their delectation by Prof. McCiellan and Prof. Goddard. As the organist was concluding the last strains of the Star Spangled Banner the second contingent arrived, whereupon it was only due that three more numbers should be played. It goes without saying that the strangers were delighted with the exquisite strains of the grand instrument, and when the yox humans stop was in operation E. H. Bumpas in-sisted that there was a maiden stowed away in the case and she was singing. After the recital all concerned ad-journed to lunch to later board a special train that had been put at their disposal by Manager Bateman of the Sait Lake & Los Angeles. Upon arriving at the beach the bathing ticket clerk had a lurid time of it for some minutes. The irridescent time, however, was trans-ferred to several of the visitors as soon they thoughtlessly plunged into the

In course of conversation President Adams of th noon stated that everyone had spent a most enjoyable time. The convention concluded, he said, on Thursday afternoon after the disposition of considerable routine work. Nothing of striking importance was accomplished at the meeting. On Thursday evening there was a recep-tion given to the visitors at the Brown Palace hotel, which concluded with a dance until the wee sma' hours of Friday morning. A few hours later the company left in special trains for Man-Itou Springs, continuing on the next day to Glenwood Springs where they spent nearly all of Sunday. From there they came over to Salt Lake.

At midnight tonight the specials will leave for Ogden over the Rio Grande Western and continue on East over the Union Pacific.

two straight games from Park City and Salt Lake dropping one at Ogden yesterday afternoon has given the newcomers a pretty good lead over the White Wings and Miners. Both contests yesterday were of an exciting order, but the Bambergerites had less trouble winning their game

than did the Lobsters.

The star feature of the games played the last two weeks was Newmeyer's masterly pitching. He had everything his own way from start to finish and held the Miners down to four singles.

In the game at Ogden the Salt Lakes showed great improvement over any thing they have done for many days, and if they keep it up the clubs are sure to be bunched pretty closely in a short time.

the Miners. The miners from over the mountains were essentially vanquished Saturday afternoon down at the League Park by an aggregation in blue uniforms presided over, while in operation, by Ancient Buck Weaver. In the language of one of the bat boys, the game was "punk."
It was decidedly too one sided; too much Lagoon in it to make it interest-

Nine times did the visitors from Bamberger's place chase around the dia-mond, while Park City, after many desperate offorts, and at the cost of enough lung power which, if it could have been have been heard forty billion miles away, froze onto four runs, eight hits and six errors. It is proper to state Ancient Buck and his followers were

doing most of their run getting. The funny side of the game was the way the miners treated the ball. They kicked it and spiked it and when it didn't move fast enough they hit it a slap with ungloved hands, on endea-

ored to throw it away.
Erstwhile Salt Laker Hale played Erstwhile Salt Laker and on two centerfield for Redmond, and on two chances he let the ball slip through his fingers to the cruel hard ground. There was one man in the bunch, however, who played the game all the time. He scored two runs got off with a double

lot up to the standard. The Lagoonites made 12 hits and got two passes. Outside of a wild throw of McNicols to Grandpa Weaver, they played an errorless game. The detailed score follows:

In nine innings he permitted the enemy to hit him but four times and they were small, harmless little licks, and all came in the fifth inning. Neither before nor after could the Miners come anywhere near Newmeyer's shoots, and his friends declared that he ollowed the four hits just to encourage the boys a little in order to

have more fun with them.

But, oh! what a different tale to tell of Harry Pendergraft. Fifteen times the Lagoonites solved his mysteries sending them flying all over the field when they were booted and bunted by his non-supporters. Newmeyer and Bradley each secured four hits while Ancient Buck, McNichols and Tiny Hoffer each bit off two, which with one for Stoney foots up fifteen. The game was not without its vaudeville stunts by Tiny Billy Hoffer. It consisted of his sliding to second and home. ### ALCEDO INJURED.

Winner of the Suburban Received a Severe Cut.

New York, June 17 .- Alcedo, the winner of the suburban, received a severe cut on the coronet of his near foreleg while at the post. The colt did not flinch from the path but went on in the race and won. He has recovered from the race surprisingly well and has already been out taking walking exercises. He is a trifle sore in the spot where he was cut, but otherwise is in first class condition. James H. Mc-Cormick, his trainer, has nothing but praise for Alcedo. He said: "Alcedo is the best horse I ever trained. After his trial of 2:04½ on Thursday morning, I was certain he would win the suburban. I told all my friends to have a bet on him, and I am glad to say that the majority of them followed my advice."

Shoot Some Hot Shot at the Fourth Year Class- A Mock Faculty Meeting-Other Features.

There was amusement and plenty of it at the University this morning. All of the fun emanated from the third year normal class, and the occasion was the class day exercises of that body of morning. Mrs. Alder has been in rope the past two years, the latter ye being accompanied by her daughte lively, intelligent and humorous students. They proved themselves to be rich in satire and the ability to portray it. Their exercises will be chronicled as being among the very best that have ever been witnessed at the University. cators of this country, will course of five fectures at the offs' and the ridiculous things they did Young academy summer school at Pre-

Then the "Third years" did another

extremely funny turn. They essayed the characters of the senior normal

class and held what was supposed to be

a typical senior class meeting. This gave them the opportunity to indulge

a rich amount of satire directed against

of his pet class, was presented to him by Mark Brown, the Albert J. Bever-
